SUBJECT: The German Military Documents Section

1. Attached is a brief description of the German Military Documents Section of the Adjutant General's Office prepared by [redacted] of the Foreign Documents Division. 50X1

2. The OMGUS document holdings represent a huge font of information which FDD has exploited in answer to requirements received. These documents could be of possible further value to our analysts in providing historical bases of fact for certain areas on which to build their estimates.

3. There is a growing tendency to return various segments of these files to the German Government, and for this reason, it is felt that the analysts should exploit them while they are still available.

4. The Foreign Documents Division is responsible for their exploitation upon receipt of specific requirements through the Office of Collection and Dissemination.
